This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Preface

THE Church of St Michael's-on-Wyre, mentioned in Domesday Survey as 'Michelescherche' is situate on the south bank of the River Wyre about four miles to the south-west of Garstang. Its parish anciently comprised the Townships of Upper Rawcliffe with Tarnicar, Out Rawcliffe, Great Eccleston, Elswick, Inskip and Woodplumpton. The adjoining ancient parishes are those of Kirkham, Preston, Garstang and Lancaster.

The Register now printed—though the earliest extant—commences at a comparatively late date—even later than the earliest Register of St Michael's own Chapelry—Woodplumpton. It is very disappointing that no earlier Register can be traced, as according to a statement by Lt.-Col. Fishwick, F.S.A., in his *History of St Michael's* (p. 68), there is an entry by Vicar Crombleholme in the Churchwardens' Book for 1738 that he 'had seen a Register belonging to St Michael's commencing 1574 and ending 1641.' This early Register had certainly disappeared by 1833 when the Parish Register Abstract was printed.

The Register here printed contains 61 leaves of parchment, recently carefully bound in calf-skin. It measures 18 inches by 7. It will be noted that the Episcopal Transcripts at Lancaster have been examined, and any differences between them and the original Register noted. And our thanks are due to Mr Satterthwaite, the custodian of the Transcripts, for his courtesy in allowing ready access to them. Our thanks are also due to the Rev. P. J. Hornby, M.A., Vicar of St Michael's, for the great sympathy he has shown with our enterprise and the facilities he has rendered.

Indexes.

I.

Christian Names and Surnames.

Christenings	*pp.*	1—60	*inclusive.*
Burials	„	61—113	„
Marriages	„	114—142	„

Where a name has variants the Head-name has been selected which now exists or which most closely resembles the modern equivalent. All variants are separately Indexed with cross references to the Head-name.

Where a Surname has an *alias* each form of the Surname is Indexed under its initial letter.

The Christian names are, with some few exceptions, Indexed under their modern form—the first spelling of the name having generally been continued in connection with the same Surname.

Illegitimate children are Indexed under the Surnames of both Mother and putative Father.

"N.X.N." signifies "No Christian Name."

An Asterisk following a page number signifies that that combination of Christian and Surname occurs more than once on the page number asterisked.

"Hall" and "Hull" are so difficult to distinguish in Original that searchers ought to exhaust both Surnames before being secure.

Preface

THE Church of St Anne, Woodplumpton, formerly a Chapelry of St Michael's-on-Wyre, is situate about four miles north-west of Preston and rather more than a mile to the west of Broughton Station on the L. & N.W. Railway's main line. The Township of Woodplumpton (which appears in Domesday Survey as "Pluntun") contains the Hamlets of Woodplumpton, Catforth, Eayes and Bartell.

The Church had certainly an existence in 1552 as the Inventory of Church Goods then taken records its possessions.

The Registers here printed are the two earliest. The first Volume contains 66 leaves of parchment 14 inches by 6; the second 41 leaves of parchment 17 inches by 6. As appears by the entry on page 44 of the printed Register, the existence, or, at any rate, the whereabouts of the first Volume was not known in 1653. Both Volumes are well-bound in White Vellum.

Our thanks are due to Rev. E. T. Millard, the present Vicar, for his great kindness in forwarding the work of transcription and publication.

Where a name has variants the Head-name has been selected which now exists or which most closely resembles the modern equivalent. All variants are separately Indexed with cross references to the Head-name.

Where a Surname has an *alias* each form of the Surname is Indexed under its initial letter.

The Christian names are, with some few exceptions, Indexed under their modern form—the first spelling of the name having generally been continued in connection with the same Surname.

Illegitimate children are Indexed under the Surnames of both Mother and putative Father.

"N.X.N." signifies "No Christian Name."

An Asterisk following a page number signifies that that combination of Christian and Surname occurs more than once on the page number asterisked.
